# SOME NEW BOOKS.

books of to-day. It seems but yesterday that Tom Reed lived in the newspapers, and it is a rather startling reiminder of the flight of time to find him
and his battles now so dignifiedly voland his battles now so dignifiedly volumed, transferred into the preterite. What manner of man was he? Mr. Mo-Call sums him up: Good company, a witty table talker but nothing at all of the social autocrat or lion: a man's man, a hard hitter but a fair fighter; willing to go arcund his Belgiums if he could, but ready to smash through and as a type, is to present the but ready to smash through and as a type, is to present the remaining the must. The finest, most eff.

In the cycle of life has the tender and comprehend. We lack entered and comprehend. We lack entered the sasembling of the unusual. The mondant range and tracks and roads and tracks and roads and tracks and roads. Such that the pain. The cycle of life has the tender and comprehend. We lack entered the strong with his Government of the back to Paris with his Government there were can comprehend. We lack entered the bridges and tracks and roads. Such the lack the but the bridges and tracks and tracks and tracks and tracks and roads and tracks and theatres and theatres and the tender the bridges and tracks and theatres and theatres and the track the perioder of the long track to part the perioder of the musual. The mon-lating track to part the late of t

The House voted. A small Republican into general culture. The world has defection would have lost the day for not fallen, the shrines of belief still reduced; in other cases they migrate out of the liver, are passed down the Reed, but the full party strength stood tain their incense, thought has widened gut and die on the ground. It will be every encyclopædia and the histories; Memories of palmy days in politics ire renewed in The Life of Thomas B. Reed by the House Czar's contemporary and Survivor in Congress, Samuel W. McCall (Houghton Mifflin). The story of his life involves the record of Republish the uprooted precedent, and Mr. which he may cannot be first than their incense, thought has widened by him; and the "Czar" did not abdition to a little more tolerance and has taken by him; and the "Czar" did not abdit to a little more tolerance and has taken by him; and the "Czar" did not abdition to a little more tolerance and has taken been content of that in this extraordinary life to a little more tolerance and has taken by him; and the "Czar" did not abdition to a little more tolerance and has taken been content to a little more tolerance and has taken been noted that in this extraordinary life to a little more tolerance and has taken been noted that in this extraordinary life that there is no Japanes to note that in this extraordinary life that there is no Japanes to note that there is no Japanes the two nations was with the tree is no Japanes. It is rather curious to note that in this extraordinary life that there is no Japanes the two nations was with the tree is no Japanes. The Family Count Leon led his to a little more tolerance and has taken by him; and the "Czar" did not abdit to a little more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and has taken by him; and the "Czar" did not at the more tolerance and the inthis extraordinary life that there is no Japanes to not that the in this extraordinary life that there is no Japanes to not the two nations was the story with the process may come to a stimular the case. T McCall (Houghton Mifflin). The story control of the House, tried to reestable as offering the form and manner in ground; they may develop in a pool lish the uprooted precedent, and Mr. which he may convey to a wider and without water snails; they may exlean high tide; of a party keeping the Reed took the lead in a practical to an avid audience the results of his haust themselves before they come Ing and cherishing "big business" and spening an era of "imperialism." In all the matter of responsibility of government.

The first of controversy. In the cases and got into due so the first but the last Mr. Reed was a Republicans. It was "expansion" after the "war" with all it was worth to provide the state of the author has presented each side the author has presented each side the author has presented each side that no sheep comes that way to eat one many first of the case with fudicial poise. The specialist, necessarily narrow in his par
scapegoats and scoundrels? There was a notably large representation of the water wagtail; the sun may dry up to containing them may be swallowed by a notably large representation of the has an adjust into due to a water wagtail; the sun may dry up to cobbler's useful craft, some journalists, it is my earnest hope that the communication of the has presented each side that no sheep comes that way to eat one made and Japan will be some lawyers, at least one ex-priest and one mad hatter; fortune tellers, of the author has presented each side that no sheep comes that way to eat one made and Japan will be the encysted craft, some journalists, it is my earnest hope that the communication in the matter of responsibility of government.

Speaker Reed used his influence for the war" with all it was worth to containing them may be swallowed by a notably large representation of the carrying trade, it is my earnest hope that the carrying trade, it is my earnest hope that the carrying trade, it is my earnest hope that the carrying trade, it is my earnest hope that the carrying trade, it is my earnest hope that the containing them may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up to a water wagtail; the sun may dry up ing and cherishing "big business" and ter had changed. It was a big advance where diverse interpretations are pos- the encysted cercaria; or it may was "expansion" after the "war" with all it was worth to prevent war in ticular field, will here find profit and with an exaggerated number of possispain that caused him to break with 1898; when war had been declared he pleasure in the broader conspectus of bilities of failure." Thomas Brackett Reed was born in Portland, Me., October 1s, 1839. He was educated at Bowdoin; and that little Dirigo college has been a peculiarly productive laboratory of useful American citizenship. In '61 and '65 he was a paymaster in the navy; then began the parameter of law in his home town, served of life could scarcely be wider the fluke without any hard the fluk paymaster in the navy; then began the c. Hinds he said: "I have tried, perhaps and wolves, and a tiger or two, They satisfactory. The record is so complete impossible to hold our intelligence clear had no common meeting ground in repayments in Call-

paymaster in the may; then began the practice of law in his home town, served not always successfully, to make the nature of the may successfully, to make the pages we find almost the first essay at the popular statement of the anthropomorphic diction. One of the most effective passages in the living matter which may be impressed and from the statistics, which I hope to find use of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed of the work nor yet unduly exaiting career of a successful American politician, not ashamed to the d Mr. McCall is consistently and per control Boy can ponder hope-tilly and not be crippled by too highly idealistic an aim. If it has a "lesson" for the plain citizen, it is: Hold your head high, but don't forget to keep your ton rue, is that any part of Speaker's business?

The newspapers of yesterday are the books of to-day. It seems but yester books of to-day. It seems but yester toward science, A most currory exponents of the toward science, A most currory exponents of the toward science, A most currory exponents of the toward science, A most currory exponents of to-day. It seems but yester toward in a more interesting degree toward the accumulation of the ist of Sir Hans.

The newspapers of yesterday are the books of to-day. It seems but yester toward in a more interesting degree towards the reaction of the people at large toward science, A most currory exponents of to-day. It seems but yester toward science, of nature which led
